

# The Validity of Jesus the Christ's Existence

According to historians Christianity was re-created by the Romans at the Council of Nicaea. Under decree by Emperor Constantine, Catholicism was created as a tool for generating “\$\$\$ followers” of different ethnicities, cultures, traditions, belief systems and languages —intended to follow the lead of the Roman Empire as colonies. Now known as the Roman Catholic Church.

Why concur in bloodshed as marauders when it's easier for followers to submit willingly through religious deities. Submit weekly tithes. The Romans got the idea from **Ptolemy Sotar**, the Greek; who changed his name to **Serapis Christus**, the savior. The proceeding Christ! Therefor the Romans created a second savior, **Jesus the Christ** from Roman theology. Jesus Christ was voted into existence by the bishops at Nicaea Council.
